

IMPERIAL SETTLERS

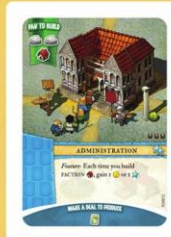

CLARIFICATION RULES

Since Imperial Settlers release in 2014 there have been many tournaments, many more hours of testing, and new cards. Thanks to this, we have identified some cards and rules that we must errata.

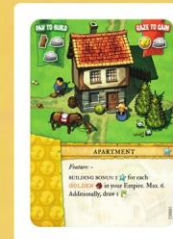

You will find below the current changes that have been made.

CARDS

All cards which contained the name of their faction deck have had the name replaced with "FACTION" to avoid confusion due to the use of the card by the Egyptians. (JAP023, JAP011, EGY010, ROM011, ROM013, ROM031)

The following cards have had their point values capped to a maximum of 6 points. (COM075, COM081, COM079, COM001, COM003, BAR022)

The Egyptians card "Oasis" (EGY005) receives a use limit. The Oasis may be used a maximum of 4 times each round.

CHANGES IN RULES

If a player runs out of cards in his/her Faction deck, the discarded Faction cards are not reshuffled to create a new deck.
